

Flight Tax Systems Site License Program

Aviation tax software for firms with multiple aircraft-owner clients

Flight Tax Systems is a web-based aviation tax reporting software that allows CPAs and tax professionals to monitor the use of client aircraft to ensure compliance and follows all IRS reporting, deduction and substantiation regulations.

Site licenses can accommodate organizations with multiple offices and users, and includes:

- Private database and login branded with your company logo
 - Administrative functionality
 - Password-controlled access levels
 - Client activity reports
- All of the robust features of the Flight Tax Systems Enterprise version
